

Guidelines for series approval of products for Microwave Ovens

Basic Configuration	Grouping as one series provided product has
Microwave Oven	<ul style="list-style-type: none">• Same Input Power rating.• Same Mains layout / Power Supply.• Same Enclosure except for differences of decoration.• Same Magnetron power.

Guidelines for Quantitative Selection of Samples

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
