

Guidelines for series approval of products for Printers and Plotters

Basic Configuration	Grouping as one series provided product has
Printers	<ul style="list-style-type: none">• Power Adaptor. (Alternate models of power adaptor may be evaluated as part of the main product.)• Same enclosure except for differences of decoration parts.• Same PCB layout.
Plotters	<ul style="list-style-type: none">• Same Mains layout or same SMPS board layout.• Same enclosure except for differences of decoration parts.• Power Transformer: Same design and insulation system.

Guidelines for Quantitative Selection of Samples

- A series may consist of 10 models.
- Unless specified otherwise, one sample may be tested for each series.
- In any of the above consideration, worst case configuration from Safety Design perspective must be selected for testing.
